Plastic Insertable Dividers

Insertable Dividers

Insertable Pocket Dividers

1. Test print on a plain sheet of paper.
 2. Hold the printed sheet behind the Avery product to check the alignment of your layout. Slight adjustments to the layout may be necessary.
 3. If the entire sheet is slightly misaligned, adjust the top and/or left margins slightly if your program has this feature.
 4. When satisfied with the layout, print onto the Avery product.
- Keep inserts from falling **out of tab with secure indent point.**
 - Slide in or remove inserts easily **with easy-access notch.**

Presentation Dividers

IndexMaker Clear Label Dividers

- Run a practice sheet through your printer to test the alignment of the contents sheet and tab titles before using the label sheet.
- Clear labels are designed to run through the printer only once.
- Store label sheets in a protective folder when not in use.

Printing – Contents Sheet and Tab Labels

1. Test print on a plain sheet of paper.
2. Hold the printed sheet behind the Avery product to check the alignment of your layout. Slight adjustments to the layout may be necessary.
3. If the entire sheet is slightly misaligned, adjust the top and/or left margins slightly if your program has this feature.
4. When satisfied with the layout, print onto the Avery product.

Reference Dividers **ReadyIndex Dividers**

This product is designed for laser and inkjet printers. Use the following tips before printing on the Contents sheet.

Printing – Contents Sheet

1. Test print on a plain sheet of paper.
2. Hold the printed sheet behind the Avery product to check the alignment of your layout. Slight adjustments to the layout may be necessary.
3. If the entire sheet is slightly misaligned, adjust the top and/or left margins slightly if your program has this feature.
4. When satisfied with the layout, print onto the Avery product.
