

Gold Paper

Specification Sheet

A bright gold metalised printing paper with a specific topcoating for excellent transfer and anchorage of toner. The adhesive is a general purpose permanent, acrylic based adhesive. It is characterized by high tack, excellent adhesion and good low temperature performance on a wide variety of substrates.

To the best of our knowledge this product does not contain any Substances of Very High Concern (SVHC) (revision 21st January 2025) over a limit of 0.1% (w/w).

Information provided here is an overview of the products and there may be additional compliances accreditations or claims. If you have any questions, or require more information about something specific, please contact us at hello@avery.co.uk.
