

Kraft Brown Paper Specification Sheet

A brown kraft paper with a natural and rustic appearance consisting of 100% post consumer waste recycled material. The facestock is manufactured without the use of elemental chlorine or chlorine containing compounds as bleaching agents. The adhesive is a general purpose permanent, acrylic based adhesive. It is characterized by high tack, excellent adhesion and good low temperature performance on a wide variety of substrates.

To the best of our knowledge this product does not contain any Substances of Very High Concern (SVHC) (revision 21st January 2025) over a limit of 0.1% (w/w).
