

Textured Cream Paper Specification Sheet

An antique white uncoated, laid, woodfree printing paper with a tactile appearance and feel. High wet strength, resistant to damage caused by moisture bloom and mould. High quality label paper designed specifically for applications where the label will be in contact with water and ice. The adhesive is a general purpose permanent, acrylic based adhesive. It is characterized by high tack, excellent adhesion and good low temperature performance.

To the best of our knowledge this product does not contain any Substances of Very High Concern (SVHC) (revision 21st January 2025) over a limit of 0.1% (w/w).
